About Scorpio Bulk Inc.

Scorpio Bulk Inc. is a provider of marine transportation of dry bulk commodities. Scorpio Bulk Inc. has an operating fleet of 57 vessels consisting of 56 wholly-owned or finance leased drybulk vessels (including 19 Kamsarmax vessels and 37 Ultramax vessels), and one time chartered-in Ultramax vessel. The Company's owned and finance leased fleet has a total carrying capacity of approximately 3.9 million dwt and all of the Company's owned vessels have carrying capacities of greater than 60,000 dwt. Additional information about the Company is available on the Company's website www.scorpiobulk.com, which is not a part of this press release.

Forward-Looking Statements

Matters discussed in this press release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words "believe," "anticipate," "intend," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect," "pending" and similar expressions identify forward-looking statements.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the failure of counterparties to fully perform their contracts with us, the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, changes in demand for dry bulk vessel capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, availability of financing and refinancing, charter counterparty performance, ability to obtain financing and comply with covenants in such financing arrangements, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessel breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.

Scorpio Bulkers Announces Update on Scrubbers

MONACO, October 15, 2018 (GLOBE NEWSWIRE) -- Scorpio Bulkers Inc. (NYSE:SALT) ("Scorpio Bulkers," or the "Company") announced today that it has agreed letters of intent, which are subject to the execution of definitive documentation, with suppliers, engineering firms, and ship repair facilities to cover the purchase and installation of Exhaust Gas Cleaning Systems ("Scrubbers") on substantially all of its owned and finance leased Kamsarmax and Ultramax vessels between the second quarter of 2019 and the third quarter of 2020. The Scrubbers and their installation will cost between \$1.5 - \$2.2 million per vessel, and the Company anticipates that between 60-70% of these costs will be financed.

Emanuele Lauro, Chairman & CEO, commented "We have long maintained that Scrubbers could be the right choice for compliance with the IMO 2020 regulations. Having cautiously and patiently evaluated various risks associated with this disruptive change to our industry, we are now confident that substantial savings can be realized and that- with this investment in our vessels- our fleet will remain the most competitive in our marketplace.
