Conflict in Ukraine

As a result of the conflict between Russia and Ukraine which commenced in February 2022, the United States, the European Union, and others have announced unprecedented levels of sanctions and other measures against Russia and certain Russian entities and nationals. The ongoing conflict has disrupted supply chains and caused instability and significant volatility in the global economy. Much uncertainty remains regarding the global impact of the conflict in Ukraine and it is possible that such instability, uncertainty and resulting volatility could significantly increase our costs and adversely affect our business. These uncertainties could also adversely affect our ability to obtain additional financing or, if we are able to obtain additional financing, to do so on terms favorable to us. We will continue to monitor the situation to assess whether the conflict could have any material impact on our operations or financial performance.

Non-GAAP Financial Measures

To supplement the Company's financial information presented in accordance with accounting principles generally accepted in the U.S. ("GAAP") management uses certain "non-GAAP financial measures" as such term is defined in Regulation G promulgated by the U.S. Securities and Exchange Commission (the "SEC"). Generally, a non-GAAP financial measure is a numerical measure of a company's operating performance, financial position or cash flows that excludes or includes amounts that are included in, or excluded from, the most directly comparable measure calculated and presented in accordance with GAAP. Management believes the presentation of these measures provides investors with greater transparency and supplemental data relating to the Company's financial condition and results of operations, and therefore a more complete understanding of factors affecting its business than GAAP measures alone. In addition, management believes the presentation of these matters is useful to investors for period-to-period comparison of results as the items may reflect certain unique and/or non-operating items such as asset sales, write-offs, contract termination costs or items outside of management's control.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is a non-GAAP financial measure that the Company believes provide investors with a means of evaluating and understanding how the Company's management evaluates the Company's operating performance. This non-GAAP financial measure should not be considered in isolation from, as substitutes for, nor superior to financial measures prepared in accordance with GAAP. Please see below for reconciliation of EBITDA.

Forward-Looking Statements

Matters discussed in this press release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words "believe," "anticipate," "intend," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect," "pending" and similar expressions identify forward-looking statements. We undertake no obligation, and specifically decline any obligation, except as required by law, to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the failure of counterparties to fully perform their contracts with us, the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and asset values, changes in demand for Wind Turbine Installation Vessel ("WTIV") capacity, the continuing impacts of the ongoing novel coronavirus (COVID-19) pandemic, including its effects on demand for WTIVs and the installation of offshore windfarms, changes in our operating expenses, including fuel costs, drydocking and insurance costs, the market for our WTIVs, availability of financing and refinancing, counterparty performance, ability to obtain financing and the availability of capital resources (including for capital expenditures) and comply with covenants in such financing arrangements, planned capital expenditures, our ability to successfully identify, consummate, integrate and realize the expected benefits from acquisitions and changes to our business strategy, fluctuations in the value of our investments, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, including conditions resulting from the ongoing conflict between Russia and Ukraine, potential disruption due to accidents or political events, vessel breakdowns and instances of off-hires and other factors.

Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
